Journal of Medical Genetics

The *Journal of Medical Genetics* is broadly based and papers appear not only on clinical studies but also on statistical, pathological, cytological, biochemical, and other aspects. The journal is mainly concerned with human genetics, but occasional animal studies are published where they are relevant. In addition, authoritative review articles appear at fairly regular intervals and annotation, hypotheses, book reviews and a correspondence column are featured. The journal is published six times a year in February, April, June, August, October, and December.

Annual Subscription, Inland £18.00; Abroad £20.00 (U.S.A. \$49.00)
