

# Kennedy Institute of Ethics Journal

**T**he *Kennedy Institute of Ethics Journal* offers a scholarly forum for diverse views on major issues in bioethics, such as active euthanasia, fetal tissue research, human embryo cloning, genetics, health care reform, and organ transplantation. Now in its fifth volume, the *Journal* has generated a positive response from the bioethics community and the academic world at large. With glowing reviews in *JAMA*, *Library Journal*, and *The Journal of the Medical Humanities*, as well as article citations in major medical and lay publications, the *Journal* has quickly established itself as a leading publication in the medical humanities. Each issue includes "Scope Notes," an overview and extensive annotated bibliography on a specific topic in bioethics, and "Bioethics Inside the Beltway," a report written by a Washington insider updating bioethics activities on the federal level.

*Published quarterly in March, June, September, and December for the Joseph and Rose Kennedy Institute of Ethics.*
