Thank you to the journal’s assessors

We would like to thank assessors, listed below, who have helped on editions of the journal over the last five years. Their advice, guidance, and support is greatly appreciated. During the last nine months the journal has moved to an internet based tracking system. If you assessed a paper during the transition period it may be that your name does not appear in this list, for which we apologise. If this is the case, please let us know. If you have not previously assessed an article for the journal and would like to do so, please contact the editorial assistant (Ruth Coster; jme@BMJgroup.com) with your contact details and areas of expertise and she will be pleased to add your name to our database.
