

Remembering Henry

Edited by Stephen Lock and Heather Windle

*A man of stature—in all ways—Henry Miller occupied a large part in many people's lives and his death in 1976 left a large gap. Though a neurologist of world renown he was best known in the North-East, where he spent most of his life, and where, for the last eight years of it, he was Vice-Chancellor of the University of Newcastle upon Tyne. A cross-section of his many friends and colleagues have contributed their reminiscences to **Remembering Henry** and, as each person saw him from a different angle, those who did not know him will find that the whole man gradually comes to life. Professor John Walton has written the introduction, three of Henry Miller's best-known articles are included (writing was his first interest after neurology), and there is a bibliography of his prolific publications. A fitting tribute, **Remembering Henry** may fill some of the gaps for those who have stayed behind. Profits from the book will be given to the Henry Miller Memorial Appeal.*
