Journal of medical ethics

The Journal of the Society for the Study of Medical Ethics

The *Journal of Medical Ethics* has been established, with a multi-disciplinary Editorial Board, to promote the study of contemporary medico-moral problems. The Editorial Board has as its aims the encouragement of a high academic standard for this developing subject and the influencing of the quality of both professional and public discussion. The *Journal* is published quarterly.

The *Journal* includes papers on all aspects of medical ethics, analyses ethical concepts and theories and features case conferences and comment on clinical practice. It includes book reviews and details of lectures and symposia on issues raised by the practice of medicine.
